According to an announcement from the Kentucky Department of Highways, a route planning study is in the offing to determine the best route for an improved highway linking West Liberty and Morehead. According to the announcement by Highway Commissioner B. E. King the route presumably would

would be as indicated by heavy black line on map above. From West Liberty, it would follow KY-7 north to Pom where it would connect with KY-976 and follow it northwesterly to its connection with KY-519 leading to Morehead.

Route Study For New Road Between West Liberty And Morehead Ordered

Hwy. Commissioner Orders Study After Visit By Delegation

Following a meeting last week with a delegation of Morgan County residents, Kentucky Highway Commissioner B. E. King directed that a route-planning study be initiated to determine the best route for an improved highway linking West Liberty and Morehead.

The delegation of Morgan County residents which met with King

in Frankfort included Boyd Blair, William F. Lacy, Henry L. Allen, Lynn Nickell, and Dr. Bill Holbrook.

According to an announcement by Commissioner King last Friday, the route presumably would follow generally the route of KY-7 north from West Liberty, connect with KY-976 at Pom, and follow that road to its connection with KY-519 near Zags in western Morgan County, and then follow KY-519 across North Fork of Licking and on to Morehead.

The route, in addition to providing a more direct connection between West Liberty and

Morehead, would provide service to the new Cave Run Reservoir.

The U.S. Corps of Engineers is already developing plans for the relocation and improvement of KY-519 in conjunction with development of the reservoir. The West Liberty-Morehead road presumably would be the first leg of a modern connector road to link 164 at Morehead with the Mountain Parkway, either at Salvagesville or at Adele on the southern edge of Morgan County.

Another proposed prong of the Mountain Parkway would run through Hazel Green, West

Liberty, Sandy Hook, by the new Grayson Reservoir and join 164 at Grayson.

Area planners say that both roads are needed if this area of Eastern Kentucky is to achieve its full economic potential.

Thus, advocates of both roads favor a joining of forces to demand construction of both highways. It is feared by many that an inter-area squabble which might develop over the location of a single connector highway would result in a deadlock and no connector road at all between 164 and the Parkway.

WORK BEGINS ON NEW OFFICE FOR DR. BELLAMY

Frederick and May Construction Co. began work Wednesday morning on a new 28x50 one story brick building which will house the office of Dr. George R. Bellamy.

Dr. Bellamy told this newspaper Wednesday he plans to move from his present location in the old West Liberty Hospital Building to the new office around mid July.

Located on North Main Street on a site known as the George and Alma Bellamy property, the new building will contain a waiting room, office, examining room, and a small laboratory, Dr. Bellamy said.

HUTCHINSON TO BUILD ON MAIN STREET IN W.L.

Rev. Charles Hutchinson of West Liberty last week purchased from the Luther Blair estate the southwest corner lot on Main and Prestonsburg sts. in West Liberty, and will construct a three-story business building on the property.

The present one-story brick structure on the lot, which was ruined in last year's Main street fire, will be raised. The building was occupied at the time of the fire by Elam Utility Co.

The lot has a 30-ft. frontage on Main street and extends back 145 feet to the alley. Rev. Hutchinson said he will construct a business building 30 x 100 feet on the lot, two stories and basement.

He proposes to commence work by mid-April on the project.

Company Starts Work On Morgan Strip Mine

Ranier Const. Co. Moving Machinery In; Building Road

Ranier Construction Co. of Allen, Ky., which reportedly has leased some 50,000 acres of coal rights in northern Morgan and southern Elliott Counties, Tuesday began moving heavy earth-moving machinery onto its leases near Redwine.

Reports are that the company will begin stripping coal on its holdings and trucking it to a C&O Railroad loading point at Morehead later this month.

Workmen for the company commenced Wednesday widening the dirt road down North Fork which links Leisure in northeast Morgan with KY-519 in southern Rowan County.

KY-519 leads over Clack Mountain to Morehead.

Company officials could not be reached for comment Wednesday but it is reported that Ranier has secured all leases on the east side of KY-7 which formerly were held by the Lee Clay Products Co.

Sources say the firm's leases embody some 50,000 acres stretching from Wrigley eastward to Crockett, following generally the ridges on the left side of KY-172 between West Liberty and Crockett.

It has long been known that the area contains a rich vein of coal near the tops of the high ridges.

Equipment moved into the area this week included 70-ton loaders and huge dozers, and it is reported that much more equipment will be moved in next week.

Marketing Quotas And Referendum Due Within 60 Days

BY LEONARD PARDEE
Courier-Journal and Times Staff Writer

WASHINGTON — With an uncharacteristic burst of speed, Congress last week ended its months-long tussle with the problems of burley tobacco.

First the House and then the Senate approved a bill to create a poundage system of production controls for burley.

The action means, assuming that President Nixon allows the bill to become law, burley farmers will vote early next month on whether to accept poundage controls.

A two-thirds majority is necessary for approval. If that margin is lacking, the present federal system of production controls and price supports will lapse for at least a year.

If the President approves the bill as expected, the Agriculture Department then would proclaim 1971 crop quotas on a poundage basis. The referendum would follow 30 days later.

The bill directs the department to restrict the pounds of burley a farmer may sell. That system would replace the current method of limiting the amount of acreage on which the crop may be grown. The bill has these principal features:

✓Farmers' tentative 1971 quotas will be based on their average per-acre yields of burley for four of the past five years.

✓The Agriculture Department may reduce quotas as much as 5 per cent a year, except for farmers whose acreage allotments are now a half-acre or less. In 1972 and 1973, their quotas may be cut no more than 2½ per cent. Allotments of a half-acre or less are now protected from any production cut.

✓A farmer may lease as much as 15,000 pounds of quota from other farmers in his county.

WOODFORD MAY ANNOUNCES FOR REPRESENTATIVE IN 71ST DIST.

TO THE VOTERS OF MORGAN COUNTY:

I am announcing my candidacy for State Representative in the new 71st District, which is now composed of Morgan, Elliott and Rowan Counties.

It was my privilege to serve the people of this County and District as your Representative in the 68-69 session of the Legislature. During that term I did my very best to promote and vote for legislation that was in the very best interest of all. I feel I have made many friends at Frankfort and would welcome the opportunity to serve the people of this area again.

Let me say to my home-county people—I will be making a very hard and active campaign in all three counties. Of course, as you are aware, we now have a new county in the 71st District, which is Rowan County, and I will need to devote a great deal of my time in that area.

On behalf of my family and myself, I would like to say "Thanks" to the people of Morgan County for your past

STATEMENT BY JOHN R. TURNER, CANDIDATE FOR STATE SENATOR

Former State Senator John Raymond Turner, of Jackson in Breathitt County, has authorized this newspaper to make the following statement:

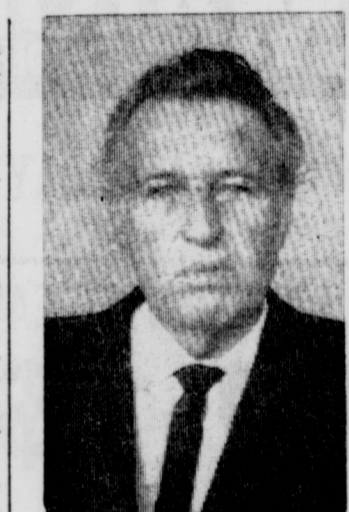

I, John Raymond Turner, wish to take this means of announcing my candidacy for the Democratic nomination for the office of State Senator, representing the newly created 27th Senatorial District, comprised of Jackson, Owsley, Breathitt, Wolfe, Menifee, Morgan, Magoffin, Elliott and Rowan Counties, subject to the action of the voters in the Democratic Primary to be held May 25, 1971.

I have accepted the challenge to seek this important office upon the advice and urging of my many friends from all walks of life who reside in this, the newly created 27th Senatorial District. I have a deep conviction that I can provide the people of this District with able and honest representation which I believe will be needed more than ever in the coming four years. I also have the necessary experience to provide good representation, having served in the Senate of Kentucky for eight years, during which time more progress was made in the State than ever before.

The needs of the people of Kentucky and especially those in the 27th District are great and many in number and I shall address myself to all the problems with special attention given to the following ones which I consider to be of the greatest importance.

EDUCATION—I will support legislation for the betterment of Education in Kentucky, giving special support to elementary and secondary education.

SOCIAL SERVICES—I believe we should improve the living circumstances of our Blind, Our Aged and Needy and our Dependent Children. Much has been done in the past for our unfortunate citizens but it has not been enough and I believe we should do more.

JOHN R. TURNER

Our Road Program — I feel that the major network of roads within the 27th District is complete with the exception of a third leg of the Mountain Parkway connecting to 1-64 making travel toward Ashland and Morehead much easier. I advocate building and improvement of secondary roads in order that all citizens can have ready access to the major road network now in existence.

INDUSTRIAL DEVELOPMENT—Since the completion of the major roads into Eastern Kentucky industry has slowly started our way. We need to speed the movement of industry into our District thereby providing job opportunities for young people who are now forced to leave and seek employment elsewhere. I pledge to work wholeheartedly toward

Andrew Cecil, shown above busy at his favorite pastime, adopted whittling as a serious hobby about three years ago. A semi-retired farmer, Mr. Cecil has accumulated a house full of eye-catching carvings, some of which he plans to display at the Dogwood Festival May 7-8 in West Liberty. At top right is a whatnot shelf fashioned from mule hames and containing several samples of Mr. Cecil's handwork, all handmade from blocks of native cedar and walnut. His specialties, shown in bottom photos, are at left miniature replicas of hammers and anvils and horseshoes that are authentic in detail down to the last nail hole; and at right is an example of the attractive four-inch-high vases he carves from cedar containing flow-

ers made from split hickory sticks. Mrs. Cecil says her husband turns out several of the carved whatnots at each sitting. He does his whittling seated in a rocking chair in the living room. Mr. Cecil is a cousin of Sam D. Cecil of Hazel Green, another noted wood carver who will be featured in this space next week.

BURLEY . . .

(Continued from page one)

✓ If a grower is unable to sell his full quota in one year, he may market the full amount of the deficiency, in addition to his regular quota, the following year. A farmer may sell as much as 10 per cent in excess of his quota in any year, but the excess will be deducted from his quota for the following year.

The action by the Senate and House followed by a day the disclosure that tobacco-state congressmen had settled their differences over how small farmers should be treated under a poundage system of production control.

The compromise came to light when the House Agriculture Committee Wednesday sent a poundage bill to the floor for consideration and approved it in less than five minutes, without discussion and without a record vote.

The Senate, which earlier had approved a similar bill, accepted the House version.

The drive for a new system of production controls gained strength a year ago when the secretary of agriculture cut acreage allotments by 10 per cent and warned that larger cuts would be necessary in the future to keep production in balance with demand.

Burley interests in Kentucky last fall urged Congress to approve a poundage plan, and Kentucky Sen. John Sherman Cooper introduced a bill proposing such a plan late in December.

He reintroduced the measure shortly after the new Congress convened in January, and Kentucky Rep. John C. Watts introduced a companion bill in the House.

The only major point of contention among tobacco forces

in Congress was over the small-grower question. Kentucky Rep. Jim Lee Carter and others insisted that some means should be found to cushion the impact of a poundage plan on farmers now protected from acreage reductions.

Carter favored similar protection under poundage, but Watts rejected the idea of continuing to exempt some farmers from all production cuts. The compromise was worked out after the House tobacco subcommittee last week rejected a proposal to exempt those holding allotments of a half-acre or less from any cut in 1972 and to subject them to half the cut of other growers the following year.

Cannel City Man Slightly Wounded By Shotgun Blast

Hershell Nickell, about 48, of Cannel City sustained minor wounds from shotgun pellets in a shooting incident at Cannel City about 10:30 a.m. Sunday, according to Morgan County Sheriff James Brooks.

According to Sheriff Brooks, Nickell was struck by pellets from a 12 gauge shotgun fired by Nickell's neighbor, Jimmy Easterling, about 42.

The incident apparently resulted from an earlier argument between the two, Sheriff Brooks said.

No charges have been placed, the sheriff said.

CITY CONSIDERS EXTENSION OF WATER TO INDEX

Hook On Fees For Water Customers Upped By Council

The West Liberty City Council at its April meeting Monday evening approved an ordinance raising service charges and deposits for households hooking on to the city water line.

Whereas in the past, the service charge was \$1 and the deposit was \$10, service charge (or hook-on fee) for new customers has been hiked to \$5 and the deposit upped to \$20. An ordinance to this effect appears elsewhere in this edition.

In other business, Council considered the possibility of extending city water lines to Index to provide water for the proposed new Morgan County High School to be built there soon.

Ken Hudson, member of a Lexington engineering firm, was present to discuss with the Council the probable cost of constructing a line to the Index area. The cost, including construction of a storage tank at Index, would be approximately \$100,000, it was revealed.

The City is eligible for a 50 percent federal grant to help finance the project and members of the City Council and Hudson were to meet last night (Wednesday) with the county school board to discuss the possibility of the school board helping pay the remaining cost.

Council also renewed for three years — at \$60.00 per month — the lease on the quarters occupied by City Hall. Also discussed was the City's participation in the upcoming Dogwood Festival.

MORGAN GIVES \$1,711.75 TO HEART FUND

Mrs. James R. Perry, Morgan County Heart Fund Chairman, reports that Heart Fund contributions here totaled \$1,711.75 for 1971, exceeding last year's total of \$1,650.00.

A note of appreciation from Mrs. Perry to contributors and those who made the door-to-door drive follows—

"I wish to thank all those who served on committees, those who made the door-to-door collections, and all businesses and individuals who gave so generously to our Heart Fund."

"I am grateful to The Licking Valley Courier, WLKS, and the city policemen for their efforts. Also I am grateful to Morgan County High School and Mr. Richard Jett who sponsored a sockhop for the Heart Fund which brought in a fine sum of money, and to students from throughout the county who contributed in various ways."

"This was our best 'heart' year and due to the kindness and generosity of all our people, Morgan County is one of the very few 'big heart' counties, meaning we surpassed our goal. This should make us all proud. Since heart disease affects 52 percent of our population, it's good to know we have given so much to help lower this figure."

FIRE GUTS HOME EARLY SUNDAY

The frame home belonging to Mrs. Billy Johnson, located on Prestonsburg Street behind Frederick and May Lumber and Supply Co., was gutted by fire which was reported about 12:55 a.m. Sunday morning.

Fire Chief Arnold Helton said the blaze, which started in the living room, was confined to that room and to the kitchen. However he estimated that smoke and water damage rendered the house and its furnishings "almost a total loss."

Flames were shooting from the windows and the roof when firemen arrived about 1 a.m., and Helton said the fire department remained on the scene until 5 a.m.

Mrs. Johnson and her two sons escaped the blaze, Helton said. He said the fire was reported by a motorist on Prestonsburg and notified city police.

who called the fire department. Helton said he was told the house and furnishings were insured for around \$13,000.

VETERANS BONUS

— I believe the time has come for the State of Kentucky to recognize the men and women and the families of those who have paid the supreme sacrifice in the Korean and Viet Nam wars by giving them the same benefits given to veterans of other wars. I will sponsor and fight for a bill giving veterans the same bonus as paid to veterans of World War II and others.

Decisions will be made on the location of recreational centers, and again this should be done to meet the needs and desires of the people who will be served by these centers. It is important that you have representation in Frankfort, which has a genuine interest in the area.

The Senate race in Morgan County simply boils down to the question of who you feel will best represent the interests of our people in the Legislature, a Morgan County citizen or one of my opponents who live in Breathitt County?

You, the voters, will make the decision, May 25. Sincerely yours,

Now, Amway gives you a choice.

Launder and clean the LIMITED PHOSPHATE or the NO PHOSPHATE way.

Why two new Amway laundry detergents? Because there is current concern that phosphate, when not removed by sewage treatment may stimulate algae growth in our lakes and streams. So Amway now offers you a choice of two laundry compounds for best laundering results with minimum phosphate use.

Amway S-A-8 Limited Phosphate, the great concentrated laundry compound that gets clothing cleanest... that helps make wash-and-wear look like new... that has the muscle to clean in hard water, in cool water... that does the best job for you, under any conditions. And yet, for the second time, Amway has reduced the phosphorus content (now only 8.7% maximum) without sacrificing its cleaning power. Just 4 grams of phosphorus per washload. If you have a good septic tank system... or if your sewage system has phosphate removal equipment, you'll probably use S-A-8 Limited Phosphate for all laundry. Otherwise you may choose it for special jobs, such as heavily soiled clothes, permanent-press, some synthetics, or for washing in hard or cool water.

Amway S-A-8 No Phosphate is the laundry compound that puts absolutely no phosphate down the drain. We believe, based on extensive research and testing, that it is the best "no phosphate" laundry product on the market today... bar none! Does an excellent job on cottons, and on general laundry when not too heavily soiled, and when used with good, hot, reasonably soft water. Amway S-A-8 No Phosphate performs when other phosphate detergents fail. Superior to soap for automatic machines... forms no soap curd to settle in fabrics or collect in drains. And your Independent Distributor of Amway products will be glad to prove it to you, by actual demonstration. So, wherever phosphate in sewage is considered a problem, you can use Amway S-A-8 No Phosphate with confidence.

Both kinds of S-A-8 contain non-ionic bio-degradable surfactant ingredients for easy breakdown in septic tanks or sewage systems. Both kinds of S-A-8 are high-density products so you use only a fraction of a cup per washload for real economy. Both kinds of S-A-8 are specially formulated to be easily rinsed away, leaving no harsh residues. Both kinds of S-A-8, like all Amway products, carry Amway's famous unconditional guarantee of satisfaction or your money back.

Amway's other "No Phosphate" and "Low Phosphate" products... there are enough of them to clean everything in and around your home. Seven with no

phosphate whatsoever... L.O.C. "regular" and "high suds" for general cleaning, walls, floors, windows, etc. ... Dish Drops for dishes, "driftab" to make clothes water-resistant, Fabric Softener and Anti-Soil as laundry additives, and Car Wash for the cleanest car on the block. Three "super muscle" cleaners with negligible (less than 1 1/2%) phosphorus content... Indusroclean for the toughest cleaning jobs like washing kitchen fans... Redu to bleach out iron-stain yellowing... and Zoom to spray away grease and grime from walls, woodwork, etc. And three special purpose laundry products (Tri-Zyme stain remover; Smashing White pre-soak; and Dry Bleach) all have phosphorus content limited to not over 8.7%. They're concentrated, with low units of phosphorus per washload. You use less for every job... put less phosphate down the drain.

DOGWOOD FESTIVAL PLANNERS SAY ENTHUSIASM IS MOUNTING

Enthusiasm for the Morgan County Dogwood Festival seems to be mushrooming.

According to Mrs. Charleen Spencer and Mrs. Kathleen Blair, co-chairman for the event, the festival set May 7-8 may excel any other past event in the county's history in citizen participation.

Citizens from throughout the county have notified the chairman of their intent to display handcrafts, antiques, and other items for sale.

Also, response from artists from throughout the state and others outside the area indicates that interest in the festival is growing outside Morgan County. All this is indicative, Mrs. Spencer said, that the two-day event may draw the largest crowd ever to come to West Liberty.

SIGN NOW FOR BOOTHS

The chairman announce that persons planning displays and booths should sign up for a space on Main Street now. Charge is \$1 per space, soon.

WHEN WAS THE LAST TIME YOU QUIT A JOB THAT PAID \$42,500 A YEAR FOR LIFE??

Ex-Judge Combs Did Last June.

WHY?? Could This Be One Reason?

This is a partial reprint of a news story in the Louisville Courier Journal last Sunday, March 28, 1971.

\$10,000 check involved

Combs' name surfaces in W. Va. controversy

By LIVINGSTON TAYLOR

CHARLESTON, W. Va. — There stirred here by a bribery indictment of ex-Gov. W. Wallace Barron, a \$10,000 check from Barron's estate last month to former Kentucky Gov. Bert Combs has come to light.

The check was written on Feb. 15, 1967 — shortly after Barron's last term settled a claim by the Kentucky Highway Department against one of the law firm's clients, Catapote Corp. of Jackson, Miss.

A story about the payment to Combs is being published in today's edition of The Charleston News-Mail.

A Combs' call from Combs to the Highway Department had arranged a meeting with highway officials at which Barron and his partner, John E. Davis Jr., settled the claim. (Combs was not governor at the time, having left office in December, 1963.)

The records in the whole affair do not

show that Combs did anything illegal.

However, there is disagreement as to whether the \$10,000 check was payment for Combs' assist in the Catapote-Highway Department case or for other legal services.

"I sent him a check for \$10,000 and, in my opinion, the phone call that he made was worth \$20,000," Davis said in an interview. Davis himself got a \$25,000 share from the \$60,000 fee in the case.

"Without Bert, I couldn't have done it," he said.

Davis also said he had in mind "many favors" by Combs in sending the check, but added, "I had never got the Catapote \$30,000—I appreciated everything he'd done—but I'd never sent him a penny of money."

In a sworn statement, a former secretary to Davis said, "Davis told me it (the \$10,000 check) was for Combs' share for arranging the deal."

COTTLE

By Orpha M. Hamilton

March 30 — A large crowd from here, Matthew, Logville, Florress, Elkfork and West Liberty assembled at the Glen Avenue Church of Christ Sunday afternoon for the baptismal service. Brother Buford Pack, who has been sick for some time, was taken there due to the convenience of the baptism and baptized by Brother Jimmy Adkins. We wish to express our appreciation to Brother Charles Hutchinson and the entire church there for opening up the building and doing all they could to make things convenient and to make us all feel so welcome.

Congratulations to Rev. and Mrs. Charlie Frederick, who observed their "Golden" Wed-

ding anniversary Sunday with open house at their home.

Mr. and Mrs. Sewell Hamilton spent from Friday to Sunday in Charleston, W. Va., visiting their daughter and family. Mr. and Mrs. Russell Black. Mr. Black leaves today for his new job in Orlando, Florida. The family will go when school closes.

Mr. and Mrs. Denzil Pack of Cincinnati visited Sunday with his parents, Mr. and Mrs. Buford Pack.

Mrs. Buford Coffey reports that her nephew, James Coffey, son of Mr. and Mrs. Lee Coffey, has undergone major surgery for stomach ulcers in a Michigan hospital. Mrs. Coffey also reports that their 6-year-old grandson, who is the son of Mr. and Mrs. Dallas Swartz of Summerville had an accident at school and received a broken

leg. This same little fellow was badly cut up two or three years ago by a lawn mower and was hospitalized for weeks.

We were glad to learn that Clarence Hopkins was home after a serious illness and a few weeks in a Cincinnati hospital.

We were also real glad to hear that Junior Pack, son of Mr. and Mrs. Arlie Pack was baptized Sunday at Rock House.

Good luck to Karen Black and her band who will leave Friday to perform in Washington D. C. on Saturday.

People are beginning to get some spring plowing done, but this has been a crazy mixed up March with its changing winds and screwball weather. We would enjoy one or two days of warm balmy sun then get knocked for a loop with a sudden snow storm, that repeated itself over and over. However we hope last Friday's surprise snow was the last fling of winter. It was beautiful though as we drove to Charleston, seeing the pines and spruces burdened down, near their load of snow.

Mrs. Mary Henry had as guest one day last week, Mrs. Maude Easterling of Louisville. Mrs. Easterling had been to Hazard to visit her brother, Walter Cox in a hospital.

Mrs. Henry reports she had 23 guests Sunday afternoon, including Mrs. Anna Pearl Riggs by her daughters and their families, Mr. and Mrs. Walter Franklin, Mrs. Bert Hammond, Mr. and Mrs. Dorsey Franklin, Mrs. Joyce Lemasters and Mrs. Jan Adams and children and Miss Sharon Brooks and Joy.

Mr. and Mrs. Buford Coffey had a call last week from their son, Paul, in Ohio saying he had been real sick for a week. The Coffeys also had a call from their daughter, Arnetta, in Texas saying she had a good job in a restaurant and was working 7 days a week.

Mr. and Mrs. Bill Lewis visited Sunday evening with Mr. and Mrs. Paris Lewis.

Rev. J. K. Bolin of Ohio visited Buford Pack Saturday afternoon.

ODDS AND ENDS

By Earl Kinner, Jr.

Unfortunately, not all those who attain or seek to attain positions of trust are men of great intellect and wisdom, or even men of particularly high ideals for that matter. Some never get their sights any higher than the ballot box at the next election—ever ready to seize and distort for their own purposes whichever is the popular side of any issue that arouses the public interest—and always for their own personal gain.

Many shallow politicians of this type — including some in this state—showed their colors last week following the court martial conviction of Army Lt. William L. Calley on charges of murdering unarmed civilians at My Lai, South Vietnam three years ago.

Sensing the great welter of conflicting emotion stirred by the Calley verdict, these cynical individuals quickly seized upon the prevailing feeling of sympathy for Calley to claim the limelight for themselves. Experts at catching the public temper and molding it to their own use, they loudly expressed outrage over Calley's conviction, choosing to glorify him as a martyred hero whose only crime was to do his duty. Cynically cloaking themselves in the guise of patriots, they called loudly for public rallies to protest the conviction, to demand a pardon for Calley, to condemn his jurors as Reds and traitors.

All they have done is add to the confusion and further complicate a situation already overfraught with emotion. Despite the welter of sympathy for Lt. Calley, the fact remains: unarmed South Vietnamese civilians, including women and infant children, were herded together at My Lai and summarily executed by American soldiers. This

constitutes murder, regardless of extenuating circumstances. Time Magazine this week put it this way: "The . . . view that Calley only did his duty is . . . untenable. It is one thing to sympathize with him or to hold that others are culpable as well; it is quite another to deny the difference between killing an armed guerrilla and mowing down old men, women, and children. Even amid horror, distinctions must be made—that is the essence of law, morals, and therefore survival. Not to make them is a form of moral blindness. That blindness and the attendant glorification of Lt. Calley may well be the ultimate degradation of the U. S. by the Viet Nam War."

Blame it on the times. Blame it on the war. But blame it, too, on political leaders who are unable to distinguish the basic moral issue involved, or worse, still, who see it but are willing to compromise it for immediate political gain.
